

North Jersey American Chemical Society Materials Topical Group Symposium

Date: April 27, 2017

Venue: Bridgewater Marriott (700 Commons Way, Bridgewater, NJ 08807)

Please register at www.njacs.org/mtg by April 20, 2017. (Registration is free!)

1:00-1:10 Introduction and Welcome

1:10-1:50 **Prof. Jing Li**, Distinguished Professor, Department of Chemistry & Chemical Biology at Rutgers University, “Hybrid Copper Iodides: Designer Materials for Low-Cost and High-Performance LED Phosphors”

1:50-2:30 **Dr. Narayan Variankaval**, Director of Molecular and Materials Characterization at Merck Research Laboratories, “Drugs as Materials”

2:30-3:00 Networking Break with Refreshments

3:00-3:40 **Prof. Bryan Berger**, Associate Professor of Chemical and Biomolecular Engineering at Lehigh University, “Direct Biomineralization of Advanced Functional Nanomaterials for Biomedical and Energy Applications”

3:40-4:20 **Dr. Chris Rasmussen**, Research Investigator, DuPont Science & Innovation, “Characterization of Complex Polymers Using Interaction Polymer Chromatography”

4:20-4:30 Closing Remarks
